Dear Sir/Madam,

Greetings from Faculty Development – GITAM Deemed to be University.

The climate is not changing, it has changed, mainly due to the use of energy. Knowingly or unknowingly, we tend to misuse, over-use and inefficiently-use energy and contribute more to climate change.

Every user of energy should become **Energy Literate**. All India Council for Technical Education (AICTE), in collaboration with Energy Swaraj Foundation, has launched **Energy Literacy Training**. In this training, one learns about **energy generation**, **consumption**, and its impact on the **environment**. You can also learn how to reduce your energy needs and how one can switch to **solar energy 100%**. The training consists of **12 modules of about 15 minutes** each and can be done easily within **3 to 4 hours.**

On successful completion of training, a **certificate** of **Energy Literacy** with the logo of the All-India Council for Technical Education (**AICTE**) and the **GITAM** logo is issued online.

The following **link** will enable you to access the website and further steps to register and enroll yourself for the course free of cost.

By Instruction, request everyone to register for the course free of cost and get the certificate for showcasing to the accreditation committees. Also, please note that the University will be issued a silver certificate for 500+ and a Gold certificate for 1000+ participants. Therefore, you are requested to kindly register to get the benefit for yourself and the University.

Thank you,
Regards,
