At GIMSR, we believe in more than just education; we provide a gateway to the future of healthcare. Recently, third-grade students from Oakridge International School had the opportunity to explore our Simulation-Based Medical Education Unit. They were captivated by the life-sized anatomical models and the dynamic environment where advanced medical and surgical training comes to life. Our simulation lab, featuring lifelike mannequins and the latest technology, offers an immersive, hands-on experience that seamlessly bridges the gap between theory and practice.

There are THREE Temples located within the Campus. Public can visit these temples and worship GOD.
