

### GITAM School of Architecture's Impactful IGBC Green Week Participation

GITAM School of Architecture actively participated in the Indian Green Building Council (IGBC) Green Week '23, promoting sustainability through a Walkathon Campaign in Visakhapatnam.

## GITAM School of Architecture's Impactful IGBC Green Week 2023 Participation

GITAM School of Architecture actively participated in the Indian Green Building Council (IGBC) Green Week '23 from September 11th to 15th, 2023. A notable highlight was the Walkathon Campaign, which saw students and faculty uniting to raise awareness about green building practices and sustainability in the built environment.

The Walkathon Campaign was a resounding success, inspiring the GITAM School of Architecture community to embrace eco-friendly lifestyles, reduce carbon emissions, and promote a healthier environment. This initiative showcased the institution's commitment to a greener future and the power of collective efforts in driving environmental change.

The IGBC Green Week '23 celebrations at GITAM School of Architecture fostered a culture of sustainability, motivating students and faculty to champion eco-conscious practices within the field of architecture. It demonstrated the institution's dedication to a more environmentally conscious future.

### 24-Hour Hackathons at Gitam Campuses in Preparation for Smart India Hackathon 2023

Support for Smart India Hackathon 2023 through 24-hour hackathons held across Gitam campuses in Visakhapatnam, Bengaluru, and Hyderabad. Explore how these events benefit Gitam's students.
