

# GITAM Deemed to be University

GITAM Deemed to be University has implemented a robust process to systematically measure and analyze food waste across its campuses. Through meticulous data analysis, the university actively initiates strategies to minimize food waste. Daily tracking of food waste is conducted using spreadsheets, allowing for comprehensive data consolidation from all campuses. This enables informed decision-making to enhance processes and effectively reduce food waste.

Between April 2022 and March 2023, a total of 488 metric tons of food waste was generated across all three campuses combined.
