

GITAM Deemed to be University

GITAM is committed to contributing for societal development and has a well structured and regular programs for school children to obtain awareness and access to this type of knowledge.

The sexual reproduction system was displayed as a model and the growth stages of a fetus in the State of Art Anatomy Laboratory and in the form of clinical pictures in other clinical departments. The anatomy museum is open to all the students, faculty, and public for a visit from 9 to 4 p.m. every day in the Visakhapatnam campus.
